ADDENDUM

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--17 April 1985

The first meeting of the National Drug Enforcement Policy Board, chaired by Attorney General Meece, will convene next Wednesday on 27 April with the DCI attending. George has been in touch with Mr. Tim Cross, the Director, Policy Management, DOJ, who is responsible for staffing/organization issues for the Board whose responsibility will be to facilitate the coordination of all Federal efforts. Cross will be in touch with George and plans to tap our expertise later on relative to the narcotics intelligence question.

JCS Report on DoD Support to Drug Interdiction

We have received a copy of the JCS report on DoD Support for International Drug Interdiction. It was sent to the SECDEF on 11 April under a cover letter from General Vessey, Chairman, Joint Chiefs of Staff.

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--17 April 1985

CIPC Organizational Activities

- Arrangements have been completed for the 22 April CIPC meeting.
  - Charlie Allen has been invited to attend--he subsequently accepted!
  - [ ] will introduce the study.
  - Appropriate individuals have received the meeting material.
- The DCI has signed the memorandum forwarding the Cruise Missile Follow-Up Report to the NFIC Principals.
  - We are in the process of having the report printed in hard copy. Our goal is to get the report out to the Community this week or early next week.

Narcotics Intelligence: [ ]

- George conferred on 9 April with Charlie Allen and [ ] He reviewed the groundwork for the Follow-Up Narcotics Study and it is our expectation that the report will be completed in time for the May CIPC Meeting. Charlie felt that this report would provide an excellent vehicle not only for giving the DCI and the Community a good overview of our progress, but also of detailing some of the new hurdles the Community is facing in dealing with the narcotics target.

~~TOP SECRET~~

TOP SECRET

- On 11 April, George had a meeting with Tom Browne of DEA on the matter of "designer drugs." George is developing a staff report on this issue and its implications for narcotics intelligence collection.

25X1  
CBW Intelligence Subcommittee:

- A revised version of the CIPC CBW Intelligence Subcommittee findings has been forwarded to members of the subcommittee for final coordination. Comments and coordination are due by COB 18 April.
- The revised version reflects those changes agreed to at the 4 April meeting. Again, one of the major issues revolves around the need for a high-level interagency forum and whether or not the WSSIC CBW Subcommittee that was recently upgraded from a working group can take up the slack. Several DoD agencies (e.g., DIA) believe that the only forum that is needed is the WSSIC Subcommittee, while others believe the WSSIC Subcommittee, while necessary and valuable, is limited by charter and reality.
- Because most accept the premise that without a forum involving the NIO, the small CBW Intelligence Community will lack the ability to confront all CBW issues and will not be able to directly interface with high-level intelligence and policy officials.
- The HUMINT Committee has already coordinated on the revised version of the CBW Intelligence Subcommittee Report; they concurred as written.

NSDD-138 Update: James E. Kelly

- Charlie Allen has reported that the NSDD-138 is being updated by the NSC staff. In its new form it may address "Phase II," which was alluded to in the original version of 138 but never pursued because the NSDD's various responses emphasized the need for more resources. This updated version may also address the manner in which counterterrorism analysis is conducted in the Intelligence Community. Much of this is, of course, speculation. At this point, we have no definite information on either the NSDD's content or its date of issuance.
- The IICT Subcommittee on Collection Requirements is scheduled to meet again this Friday. It will discuss the outline of a possible new DESIST file which the subcommittee members think would assist counterterrorism production analysts handling their collection requirements. If the subcommittee can agree on a format, the proposal will be made to the full IICT at its next meeting on 25 April.
- This Friday's agenda will also include an NSA briefing

FLASHBOARD: 

- The Coast Guard will ask for both a FLASHBOARD and a DESIST terminal in the near future. RADM Venzke made this known at DIA's recent Senior Military Intelligence Officers Conference. He indicated this would have benefit to the Coast Guard's narcotics mission as well as counterterrorism--presumably a reference to Latin American narco-terrorism connections. General Williams was supportive.

NOTE: We will have to do some serious soul searching on this one before we support it. You will recall that last summer Ray, along with others--to include O/VP, FBI, and CG--went to El Paso to resolve a problem on how the CG was treating classified information in an EPIC unclassified date base. As you know the information on FLASHBOARD and DESIST can be extremely sensitive--sources and methods--and I question CG's ability to protect this information, aside from having the need to know.
